-  **NEW CLASS A INDUSTRIAL BUILDING**
-  **142,000 SF**
-  **RANCHO BERNARDO | SAN DIEGO, CA**

HIGHLIGHTS

- Purchased a 141,518 SF Class A, newly constructed industrial building in the Rancho Bernardo submarket of San Diego, California, in an off-market transaction for \$50M (\$353/SF) and 4.00% cap rate in February 2021
- Trophy / core asset, 100% leased upon closing to investment grade credit tenant and the largest e-commerce company in the world, Amazon (NASDAQ: AMZN | S&P Credit Rating: AA) through December 31, 2030
- Consistently ranked as one of the most efficient Amazon facilities in the country (5 hours or less from order to delivery), this site was the eighth sub-same-day Amazon facility ever built and generates nearly \$1B in revenue each year at this location alone
- Located in one of San Diego's strongest and fastest-growing submarkets with world-class corporate neighbors such as HP, Sony, Northrop Grumman, General Atomics and Apple, who acquired an eight-building, 68-acre office campus for \$445M in 2022 and announced plans to hire 5,000 workers locally by 2026
- Institutional-quality industrial building featuring 32' clear heights, desirable allocation of 91% low finish warehouse and 9% office, with ample loading and truck courts that, prior to executing lease with Amazon, was highly sought after by credit tenants such as Apple and Home Depot
- Long-term optionality on the 10-acre property which has an allowable floor area (FAR) of 2.0, with no restrictions on its building heights, offering future development potential of up to 300,000-400,000 SF of office

-  **SAN GABRIEL VALLEY | LOS ANGELES, CA**

HIGHLIGHTS

- Purchased two industrial buildings totaling 75,081 SF in the San Gabriel Valley submarket of Los Angeles California, in an off-market transaction for \$12.5M (\$166/SF) and 6.00% cap rate in April 2021
- Acquired well below replacement cost as a sale-leaseback and 100% NNN leased for 10 years to an industry leader generating revenue of more than \$50M in year of acquisition
- Located in one of the strongest submarkets in the United States (0.5% market vacancy at time of disposition and 43% rental growth over a three-year period from 2020 to 2022), Azusa Center represented an appealing, core investment profile as light industrial product that is in limited supply in the Greater Los Angeles area
- As capital markets experienced a flight to quality over multiple quarters preceding disposition, Azusa Center received unsolicited demand at a material premium to our underwritten exit values, leading to the formal "testing of the market" earlier than our initial 5-year hold
- Sold in November 2022 for \$20.5M (\$273/SF), which translates to a 3.83% cap rate, to an "all-cash" buyer - a 64% price premium to acquisition proforma
